Appliances	_____				
Fixtures	_____	<u>Pool Equipment:</u>	#		
Generators/Motors #	_____	Electrical Outlets/Timers	_____		
Outlets/Switches	_____	Fixtures/Lights	_____		
Service Meter #AMP	_____	Pumps/Motors #HP	_____		
New Subpanel	_____	Plumbing Fixtures (#Jets)	_____		
OH/UG	_____	Mechanical Heaters (over 100,000 BTU)	_____		
Temp Pole/Piggyback	_____	Mechanical Heaters (under 100,000 BTU)	_____		

*Legal Owner's name, address and email required.

Hardscape includes Water Features/Exterior Sink, BBQ, Fireplace and Gazebo**

STORMWATER QUALITY CERTIFICATION

I, _____, am the applicant authorizing construction activities
(Print name)

at _____, and I hereby certify as follows:
(Property address)

1. I am aware that I am responsible for complying with the provisions of Title 16 “Water Quality Control” of the Laguna Beach Municipal Code which is available on line at <http://qcode.us/codes/lagunabeach/>.
2. I understand that the Water Quality Control Ordinance prohibits the discharge, either directly or indirectly; of construction materials (including, but not limited to sediment concrete, paint, solvents, petroleum products, and related hydrocarbons, plastic, wood or metal products or shavings, sawdust, and trash) into the City’s storm drain system.
3. I will post the “Pollution Prevention, It’s Part of Your Job!” poster on my active construction site.
4. I will take steps to insure that all contractors, subcontractors, workers and other persons hired by me or under my control or supervision with regard to authorized construction activities at the above-described site are aware of and familiar with the provisions of the Water Quality Control Ordinance.
5. In the performance of the authorized construction activities at the above-described site, neither I nor any other contractor, subcontractor, worker or other person hired by me or under my control or supervision will cause or allow any prohibited discharge of construction materials as described in Paragraph 2 above.
6. I understand that a prohibited discharge in violation of the Water Quality Control Ordinance may subject me and/or other persons to administrative, civil and/or criminal enforcement proceedings and penalties as set forth in the Ordinance.
7. I understand that I must also comply with the standard water quality notes, and the approved grading and erosion control plans (if applicable) that are part of the permit.
8. Water Quality measures have been considered in the design of the project(s) and will be constructed as shown on the approved design project plans (if applicable).
