

**LAGUNA BEACH**  
**HISTORIC RESOURCES INVENTORY**

## DEFINITIONS

- (E) Exceptional: Buildings with this classification are outstanding historic architectural examples. Most have been recommended eligible for the National Register and those which were not may be considered for National Register status in the future. Buildings in this category are usually in excellent architectural condition and are typically unique or excellent historical and/or historical architectural examples.
- (K) Key: Buildings with this classification are very good historical architectural examples which strongly retain their original integrity. These buildings have significant architectural, historical, and/or aesthetic value and are fine period examples.
- (C) Contributive: Buildings with this classification are those which contribute to the overall character and history of the neighborhood, though they are not unique in and of themselves. The great preponderance of these buildings contribute greatly to the historic and visual fabric of Laguna Beach and are important in a more general historical architectural context. The many beach bungalows built in Laguna during the 1920's are examples of buildings in this category. While contributive buildings are not architecturally outstanding, without them the streetscape of many Laguna neighborhoods would be very different.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA BEACH RECOGNIZING THE LAGUNA BEACH HISTORIC RESOURCES INVENTORY AS A LISTING OF THE BEST REPRESENTATIVE EXAMPLES OF HISTORICALLY SIGNIFICANT ARCHITECTURE WITHIN THE CITY.

WHEREAS, the historic preservation planning firm of Heritage Orange County, Incorporated, under contractual agreement with the City of Laguna Beach and the State Office of Historic Preservation, performed a historic survey of the City during the period from July 15, 1980 to July 15, 1981; and
