

Login to the City's website @ www.lagunabeachcity.net

From the Homepage under the Government heading, use the drop-down menu to select "Search City Documents"

Select the link "Click here to Access Community Development Documents"

In "Search Type" choose "Building" or "Planning" from the drop-down menu

You may search by Assessor's Parcel Number (APN) using the format xxx-xxx-xx

You may also search by Address using the information below.

The OnBase software utilizes an asterisk (*) as a wildcard symbol to broaden the search so you will not miss variants of words that are relevant. The wildcard is used so that the full name does not need to be typed or spelled out.

The * is helpful if you do not know if an address is an Av, Av., Avenue, etc.

In the address field you would enter 505 Forest* and then click on the search button

You could also enter 505 For* and then click on the search button

If you enter 505 Forest without the AV or the *, you will get "no documents found"

The best return results are found if you enter information into only one search field at a time.

How can we help you?
